ONE WAY TO SETTLE.

How Pete Atwood Thinks Accounts Can Be Squared.
 A short time after six o'clock last evening Wm. Hardy, an old gentleman living on West Weatherford street and Pete Atwood a carpenter, got into what will probably turn out to be a serious difficulty.

There was some kind of a settlement to be made between the men, which was worked at in the house, but could not be straightened. After the many figures made failed to help the disputants reach a conclusion, Atwood, remarked "if you come out I will settle it." Hardy stepped out, when according to the statement of Officer Coker, Atwood opened his pocket knife, jumped on Hardy and cut him in the head, the knife severing the skin covering the frontal bone, cutting the eyebrow in two, barely missing the eye and penetrating the cheek; another wound is on the left leg just back of the knee. Hardy's wounds were dressed by Dr. Moore, and the wounded man taken home. As far as could be learned Atwood was not arrested last night, but complaint will probably be made against him to-day.

North Texas Female College.

This institution of learning that Texas may well feel proud of. The college building is a new and commodious brick edifice, is in a retired situation, though conveniently near the central portion of the city. The president's residence is in the same enclosure, with ample capacity for sixty boarders. In fact, a large number of the young ladies from a distance board in the President's family.

This institution has an unexcelled faculty in their respective branches. Many of them have state-wide reputations as faithful, able and conscientious teachers. It receives its patronage from almost every portion of Texas, and it is only necessary for its advantages to be made known abroad in order for it to receive a liberal patronage from our neighboring states.

AS AN EDUCATIONAL POINT, Sherman is remarkably healthy, and is a city of the most refined society. Instead of sending sons and daughters to Northern and Eastern colleges, Texas, with her genial climate and cheapness of living, ought to educate the youths of her older sister states.

It is estimated that the world's stock of locomotives consists of 60,000; of passenger cars 120,000, and of freight cars 1,500,000. The capital invested in railways, which are in all 200,000 miles long, is \$20,000,000. The commerce of the seas is carried by 12,000 steamers and 100,000 sailing vessels, whose tonnage amounts to over 20,000,000 tons.

TELLS WHAT THE AMOUNTS OF Lumber, Logs, Cisterns, Tanks, Granaries, Wagons, beds, Corners, Cordwood, Hay, Lands, Carpenters', Plasterers', Bricklayers' work, etc. Includes entirely, New and Practical Hints for business calculations, which even a child can comprehend. It is neatly printed and bound in pocket-book form, and is a ready and lightning calculator. Silicate State Memorandum, permanent calendar, and pocket-book combined, all for the price of a common diary in similar binding.

ROPP'S

Computation Diary.

Embodying everything in Figures that is practical and adapted to the wants of Farmers, Mechanics and Business men; and by ingenious and original systems, makes the art of computation easy and simple, even for a child. Contains 10,000 business examples, nearly 100,000 business examples of almost every conceivable kind, and is worth its weight in gold to every person not thoroughly versed in figures. Shows at a glance, the value of grain, logs, hay, lands, and pounds are in the load and how much will come to, without making a single calculation. In like manner, it shows the value of cattle, hogs, hay, coal, cotton, wool, butter, cheese, eggs, flour, sugar, bacon, etc., computing interest and wages. It has no equal, either in easy methods or convenient forms. It shows at a glance, the accurate measurements of all kinds of lumber, logs, cisterns, tanks, barrels, granaries, wagon beds, corners, cordwood, hay, lands, and carpenters', plasterers' and bricklayers' work, etc. It, however, not only tells results but also teaches entirely. New, short and plain language, and contains rapid commercial calculations, which will prove highly interesting to every student of this great and useful science. It is neatly printed on fine thin paper, elegantly bound in pocket-book form, and bound in a silicate State Memorandum, pocket for permanent calendar, showing the day of the week for any date in the 17th, 18th, 19th, and 20th centuries. It will be to every one a valuable book, and will be used and convenient work before buying a new memorandum, as it saves not only time and labor, but often dollars and cents as well, and withal costs no more than an ordinary diary in similar binding.

NOTICE.

SPECIAL LAW.

Notice is given that I will apply to the legislature of the state of Texas, for an act to con-

stitute on the second Tuesday in January,

for the passage of an act to refund \$142,10 paid into the state treasury in two payments, on

to wit: April 15, 1878 and May 10, 1880, on sur-

vey No. 1, made by virtue of land scrip No.

No. 1, issued to the state of Texas, for 600

acres, and situated in Tarrant county

about 11 miles south of Fort Worth. The

payments having been made by me under the

trust that it was state school land, and

that prior to the date of payment, had been

patented to the heirs of Henry Lane, deceased.

This January 1, 1883.

ADD-RAN COLLEGE.

The annual sessions of this college open on

the last Monday in September and close on

the last Thursday in April. Its course of

study are as extensive and as thorough as

the best institutions. Its teachers, both

men and women, are well trained, both

in their various branches, and are well

qualified to instruct the students.

Its situation healthy and pleasant,

its having the largest attendance of any

school in the state, a flattering recom-

mendation of its merits.
